TENNIS WALLS

Just as good as Wimbledon

What do you do when your tennis partner doesn't have any time for you, or when you want to practise secretly? The SMASH BACK tennis wall makes nearly anything possible. The specially designed, unique curved wall which was developed in co-operation with sports professionals, enables an optimal ball rebound, almost as having another player on the opposite side. Quick change form forehand to back hand, cross and longline, hard and soft returns - whether you're a beginner or a professional you can influence your own aim and degree of difficulty.

Maillith is Europe's leading manufacturer of weather resistant training walls.

10 WARRANTY YEARS

MAILLITH
