BOULDERING WALLS

Hold on tight

Bring the heights into the plains! Climbing artificial walls has been trendy for a long time. No wonder! It's fun and healthy. It trains strength, co-ordination and body control. Bouldering walls are extremely popular as you can climb up within jumping distance therefore making rope-securing and supervision unnecessary.

There is no limit to your fantasy at bouldering. You can create many different group games. It is ideal for play-grounds, schools, youth hostels, etc.
